

Latest Food Product

Comes in Tablet Form and Replaces the Food and Nerves What is Worn Out and Wasted Away.

In this way it builds up and repairs in manner of a tonic, and enables one to throw off most of the ailments of life. This preparation, known as Dr. Chase's Food and Nerve Food, overcomes and cures not only such common ailments as nervous headache, nervousness, dizziness, etc., but even such serious conditions as profound blood poverty, neurasthenia, paresis, dementia, locomotor ataxia, which have hitherto resisted all drug medication. It is not a drug, having a stimulating and only temporary effect, but in a food that feeds the depraved blood and starving brain and nerve cells, and in a natural manner restores them to structural integrity and perfecting of function. To convince you that it is really a wonderful food cure, its makers, The Dr. Chase Co., Philadelphia, Pa., ask you to weigh yourself before taking it. Price 50 cents a box, five boxes, enough to give it a fair trial, \$2.00. Book free.

Under Gov. Peck's administration the public funds were spent for the public good and were not devoted to the building up of a political machine. It cost \$1,000,000 less a year to maintain the state government when Geo. Peck was governor than it costs with Robert La Follette in the executive office. It is not at all strange that Gov. La Follette should not care to discuss this phase of the question. It is much easier and far less embarrassing to cuss the corporations.

It cost \$1,000,000 less a year to maintain the state government when Geo. Peck was governor than it costs with Robert La Follette in the executive office. It is not at all strange that Gov. La Follette should not care to discuss this phase of the question. It is much easier and far less embarrassing to cuss the corporations.

Chris Thompson, who has been in the harness making business for several years past at Vesper, this state, was in Glidden the latter part of last week looking over the field for a location. After carefully viewing the situation he decided to move here with his family and will arrive next week. Mr. Thompson is a man of several years experience in this particular business and will undoubtedly do well in this new field as there is a demand for a harnessmaker that should increase as the country settles. Owing to a scarcity of buildings he will for the present have his shop in with Mr. Wang. It would please us to see the farmers support this industry and it is one that should be appreciated by every man that owns a team of horses.—Glidden Enterprise.

Cause of Lockjaw.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most violent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. Otto's Pharmacy.
